No. 2050. COLORADO SPRINGS, SATURDAY, FEBRUARY 3, 1883. Price, Five Cents

GENERAL MATTERS.

Yesterday's Proceedings in the General Assembly.

Invasion of Oklahoma Begun. The Government will Resist.

Congressmen Interviewed on Chances of Tariff Revision.

General Assembly.

DENVER, February 2.—The senate convened at 10 o'clock. The entire morning session was occupied in listening to reports from different committees. Adjourned until 7.30 this evening.

The house was called to order at the usual hour by the speaker. On motion the house resolved itself into a committee of the whole and the following bills were considered: To create the county of Mesa; read and reported favorably. To create the county of Delta, was read and reported favorably. To create the county of Montrose, read and reported favorably. No. 90, to provide for the qualifications of voters. It provides for a residence in the state for six months immediately preceding the election, sixty days in the county, and in the ward or precinct ten days. Temporarily passed. No. 115, to amend the criminal code. The bill prescribes the duties of the sheriff in cases of capital punishment. Among other things the bill provides that pending execution the condemned man shall be kept at hard labor and that all executions take place at the penitentiary. The bill was reported favorably. On motion of Mr. Osbiston house resolution No. 180, to regulate the charges for sleeping cars, was read a second time and referred to the committee on railroads. The special order, house resolution No. 7, to regulate the government and maintenance of the state penitentiary, was taken up. On motion of Mr. Royal the bill was amended so as to provide for the appointment of the warden by the governor. The reading of the bill not having been completed, the house at noon took a recess until 1.30 o'clock.

The house met at 1.30. The penitentiary appropriation bill was taken up and finally passed with a few unimportant amendments, the democrats voting no on the emergency clause. The committee on agriculture and irrigation reported that H. B. No. 194, to make a canal from Grand Lake, Grand county, to the head waters of St. Vrain and North Boulder creeks, passed as amended. The third reading of bills being in order the following were taken up: H. B. No. 206, to amend the criminal code, was reported from the judiciary committee and passed. H. B. No. 169, by Mr. Chapman, to regulate fees chargeable by county, precinct and other officers, passed. H. B. No. 32, by Mr. Mears, to establish the county of Garfield, passed. H. B. No. 146, by Mr. Butcher, to establish the county of Eagle and to provide a term of court therein, passed. H. B. No. 220, by Mr. Pisko, to create a fund of $300,000 by issuing bonds for the erection of a capitol building in the city of Denver, was taken up. Mr. Royal moved to change the $300,000 so as to read three dollars. The motion was put to vote and lost by a vote of 28 to 7, and the bill passed finally. H. B. No. 117, by Mr. Chapman, to amend chapter 93 of the general laws entitled railroads and relating to prairie fires was the next bill considered, and it was passed as amended. H. B. 100, by the judiciary committee, to repeal all existing laws relating to organization, jurisdiction and practice in county courts, was amended by Mr. Ballard and passed. H. B. No. 94, by Mr. Darling, to establish a system of free schools, passed. H. B. No. 150, to provide for the formation of corporations, was read and passed. H. B. No. 208, to provide for the assessment and collection of revenues, was laid over. H. B. No. 155, to amend chapter 18 of the general laws of the state of Colorado, entitled "Conveyances," was passed as amended. H. B. 78, by Mr. Letcher, to authorize constables to perform the duties of sheriffs in certain cases, passed. H. B. No. 154, by the judiciary committee, to amend chapter 103 of the general laws, passed. H. B. No. 165, to amend chapter 57, general laws of the state, relating to official bonds, passed. H. B. 187, by Mr. McIntyre, to suppress the taking of illegal fees by certain officers named in the bill, passed. H. B. 149, by Mr. Kirk, for the release of trust deeds, passed. H. B. 182, by the judiciary committee, to regulate the service of summons and other processes issued by justices of the peace, passed. H. B. 8, by Mr. Rockafellow, to regulate labor of convicts in the state penitentiary. Mr. Rockafellow stated that the object of the bill was to prohibit competition of convict labor with other. The convict labor was greatly objected to by laboring people living in that section. Mr. Hough knew the object of the bill [illegible] one and that it should be [illegible]. A vote being taken the bill was defeated by 21 to 18. H. B. 93 was again taken up and amended by striking out Sec. 2, which proposed to have schools located on the public highway and not forty rods from a house, and was passed. The emergency clause was lost by a vote of 19 to 18. Mr. Baldwin moved to reconsider the vote on H. B. No. 8, which was lost. The house then adjourned till 10 to-morrow morning.

March on Oklahoma.

KANSAS CITY, February 2.—The Journal's Coffeyville, Kansas, special says the Walden Kansas City colony started for Oklahoma to-day. The party numbers about 200 men. Captain Payne telegraphed Walden from Arkansas City that he expected to start from there to-morrow and his party, all told, would be about 400 men.

WASHINGTON, February 2.—Orders have been issued to General Pope to take vigorous measures to prevent Captain Payne and his followers from invading the Indian Territory.

KANSAS CITY, February 2.—Major Thomas B. Dewees, of the department of the Missouri, passed through the city to-night, en route from Fort Riley for Fort Reno. He is ordered by Major General Pope to proceed to Fort Reno and take command of the force there to prevent any party from settling on the ceded lands in Oklahoma. There are now at Fort Reno four companies of cavalry and Major Dewees is authorized to employ the service of any additional troops in the department, if necessary, to repel the invaders. Some of the colonists who left here recently expressed a determination to resist force, if troops are sent to remove them, and it is thought their removal may not be peaceable.

A Chance for Tariff Revision.

WASHINGTON, February 2.—Opinions still differ widely on the question of a bill getting through, looking to a general revision of the tariff. The Herald has obtained a number of interviews which indicate this difference of opinion among prominent republicans.

Senator Aldrich, of Rhode Island, a member of the finance committee, says: "I think a tariff bill will pass. We made good progress last week, and at the same rate can get through the bill in a week. Of course, any bill will not suit every one. I do not think the bill in its present shape will pass, but that there will be a compromise in the end. The republicans will not abandon the measure, and there will not be any factious opposition. I do not think that even those republicans who are not pleased with all of the bill can or will oppose it. The tariff bill will be considered to the exclusion of all other business until it shall have been disposed of. I do not think there will be an extra session should the bill fail to pass. At this time it is not possible to tell what will be the final form of the bill, though I think the senate will make changes when it comes to consider it as a whole."

Senator Van Wyck, of Nebraska, says: "A tariff bill may pass the present congress, but such a bill as the people want and are expecting will not be passed. Any bill with a perceptible reduction, so much that the people could see and understand it without the aid of an expert, would be so objectionable to the high tariff men that they would not favor its passage. In other words, I mean to say that all protective industries would prefer the present tariff to one making perceptible reductions. Then, again, those desiring that there should be a reduction, in fact, on all articles of necessity, can see no advantage in a new tariff making no perceptible reductions, or upon those articles not affecting the masses of the people. At present no one knows what the result will be. It is extremely doubtful whether any bill passes this session."

Senator Allison, of Iowa, a member of the finance committee, says: "I have seen no indication of the bill being neglected or abandoned by the republicans. I don't see how they can, or why they should do this. We have already made much better progress than we had expected, and at the same rate of progress we ought to be able to put the bill through the senate this week. I am sure that in the senate the feeling among the republicans is to go on with the bill to the exclusion of everything else. After we get the bill through the senate we will have to rely on the house to work with the same zeal, and if they do this we can pass the bill [illegible]. It would be a great misfortune not to pass a tariff bill. I have no idea that an extra session is probable, but I should not like to contemplate that until we see what we can do."

Senator Conger of Michigan said: "We shall do all we can to perfect the bill and pass it. I think the bill as it now stands will be changed, and lumber restored to the list of duties. Of course I would not, as I have publicly said on the floor of the senate, vote for a bill which puts lumber on the free list, but I am sure this will not be the case. Unless there be dilatory action by the democrats, a tariff bill will be passed."

Senator Sherman of Ohio, a member of the finance committee, says he thinks congress will pass a tariff bill this session. However, it is, in his opinion, impossible to say what form it will be in, as the house has not yet begun to vote on the schedules. He thinks it probable that a bill making a general reduction of, say, twenty-five per cent. from the present rates may pass.

Mr. Kelley of Pennsylvania, chairman of the house committee on ways and means, says: "I believe it is the purpose of the republican party in the house to pass a tariff bill, which shall be substantially the revision of the commission's bill, made and reported to the house by the ways and means committee. I have hopes that such a bill will pass the present congress. As I said on the floor of the house, yesterday, I don't believe the president will offer any bribe to the democratic party, to avoid action on the tariff, by intimating there would be an extra session in case congress fails to pass a tariff."

Mr. McKinley, of Ohio, a member of the same committee on ways and means, says: The republicans will make an honest and real effort to pass a tariff bill, and I believe their efforts will be successful. I also am of the opinion that the house bill, as reported by our committee, will pass."

Mr. Haskell, of Kansas, also a member of the house committee on ways and means, says that the chances for the passage of a tariff bill are against the republicans. While there may be some tariff legislation accomplished this season, he doubts it. He thinks if anything be done, it will be the rejection of the senate amendments respecting the tariff, by the house, which will then pass the bill as an internal revenue measure proper, and then the senate will, after conference, adopt the house tariff bill.

Cattle Diseases.

WASHINGTON, February 2.—The agricultural department, through its veterinary division, have been engaged during the past year, in investigating epidemic diseases among domesticated cattle. Last June a committee, consisting of Dr. Salmond, of New York; Dr. Hines, of Washington, and Dr. Saunders, of Virginia, was appointed to study cattle diseases, and requested to report the result of their work to congress. This report will be presented next week. It will show the total number of cattle in the United States to be 33,306,333; valued at $659,139,168. In Texas alone there are 4,072,240 cattle. The loss from epidemic diseases is ten per cent. Much of the time since the committee was appointed has been spent in examining the causes of Texas fever and the sections of the country subject to it. This disease, it is found, was first introduced into this country in North Carolina in 1743. The committee have traced the disease along Cape Fear river to the mountains in North Carolina; thence to the Dan river; thence along the St. James; thence to the Potomac. The trace was lost on the Delaware river, in Pennsylvania. The disease appears between June and October, and is seldom known to exist after a frost. It is believed that if the cattle are driven from the infected districts during the heated term the loss occasioned by Texas fever can be entirely abated. The investigation shows that the Texas fever among cattle is very much like the yellow fever, which has occasioned such a loss of life among men.

Queer Conscience Contribution.

WASHINGTON, February 2.—Treasurer Gilfillan to-day received a conscience contribution of $10 in an envelope marked Washington, which also contained the following note: "Estimated amount of customs due on articles brought home from Europe. If I could have made head or tail out of the tariff, I would have paid the duty honestly and not have suffered myself to be overruled by other members of the party and beguiled into paying custom house inspectors instead of the United States."

Against National Banks.

WASHINGTON, February 2. Senator Pendleton introduced a bill by request to-day, which is particularly intended to compel the closing of national banks, winding up their affairs in cases where the reserve is permitted to fail and remain below the amount required by law.

The Mexican Treaty.

WASHINGTON, February 2. There is some delay in the matter of the proposed Mexican treaty. The state department has not yet sent it to congress, but it is ascertained that so many objections have been made to it on the part of certain influential senators, that inquiry has been made whether Mexico would recede from her demands. It is ascertained that Mexico will not make any further concessions, and that the treaty must stand or fall as it is. A number of the large enterprises in which Americans are engaged are said to be dependent upon the treaty, and General Grant has gone to New York to promote it.

Tabor Takes His Seat.

WASHINGTON, February 2. Chilcott presented the credentials of Tabor, elected from Colorado, and he was sworn in and took his seat.

[illegible]

WASHINGTON, February 2.—The legislative, executive and judicial appropriation bill, reported to-day, recommends an appropriation of $20,396,000, an increase of about $49,000 compared with last year. The increase in the amount appropriated is mainly due to necessary provisions for increased membership of congress, and to the fact that the next is a long congressional session. The bill in detail varies very little from former bills, except the insertion of a clause which will make the clerical day in the various departments eight instead of seven hours in length.

Phoenix Park Plot.

DUBLIN, February 2. It is believed that the government has accepted evidence of men engaged in the Phoenix park plot. The ranger of the park, resigned, is under police protection. He is not sure that he can identify more than two of the prisoners. There was a hitch in the signalling along part of the park at the time of the murders, caused by one of the men appointed to signal neglecting to move his handkerchief. It is believed this man has been killed because of supposed treachery.

Germany and the Vatican.

VIENNA, February 2.—The pope has returned a very conciliatory answer to the Emperor William's letter. It is hoped a direct and personal understanding will shortly be reached on a basis of complete revision of the May laws with concessions on the part of the Vatican upon the question of obtaining previous consent of the German government to all educational appointments.

ANOTHER BLIZZARD.

Wyoming has the Heaviest Snow in its History.

Cattlemen Anxiously Hoping for Wind.

Water for Stock a Serious Question in Kansas.

The Blizzard

TOPEKA, February 2.—The blizzard now prevailing over the state is nearly as severe as the previous one, and while not particularly disastrous, it will cause some suffering among cattle on the range. Continued cold weather has frozen some of the smaller streams to the bottom, so that the question of water for stock will become a serious one. A heavy snow fell in western Kansas, but trains have not been seriously delayed on any of the roads. The winter is proving the most severe that we have had for years.

CHEYENNE, February 2.—The heaviest snow storm in the history of the territory fell during the past four days. It is three feet deep in the city and from twelve to thirteen inches on the cattle ranges all over the territory. There being no wind the entire surface of the ground is covered. Cattle are suffering for grass and unless wind comes within three days and blows the snow off of exposed places, the losses will be disastrous. Cattle men are hopeful of wind. The temperature is 30 below; no wind. Trains on the U. P. road have been blockaded for the past forty-eight hours on the Rocky mountains. The passengers are furnished with food. When winds come drifts are bound to blockade trains on the plains along the road for four hundred miles.

Corner in Hogs.

CHICAGO, February 2.—The marked advance noted in pork and lard to-day has led to a very general impression among board of trade men that a squeeze in provisions for February has begun. Rumor has it that Armour & Co. hold over 200,000 barrels of pork and have a long line of shorts not only in this country but in Europe also. The small receipts indicate that the stock of marketable hogs is about exhausted so that the corner can be run with comparative ease. N. K. Fairbank & Co. are said to control nearly the entire stock of lard and are credited with operating in conjunction with Armour in meats. The Chicago Packing and Provision Co. is said to be in possession of and running the squeeze for February. These rumors together with the small amount of provisions on hand shown by publication to-day gave bulls their own way on call.

Rioting Strikers

CINCINNATI, February 2.—Two weeks ago the coal shovelers of the Harper's valley mill, Newport, struck against a reduction in wages and quit. Harper supplied their places by Cincinnati men. To-night these men on their way from work under an escort of police were attacked and beaten with stones. The chief of police and a couple of policemen were hurt, not seriously. The mob at the last point of attack numbered over a thousand.

Heavy Failure.

CHICAGO, February 2. The most accurate estimate obtainable fix the liabilities of the Union iron and steel works at $2,304,458. The works have been taken possession of by the U. S. marshal on attachment.

MINING MATTERS.

News Gleaned from Our Exchanges.

Denver Republican.

The Leadville smelters are all overcrowded with ore.

President J. P. Whitney, of the Catalpa mine, is expected in Leadville in about a month.

The Gunnison mine is closed down temporarily, and a change in ownership is anticipated.

Manager John T. Herrick, of the London mine, has gone to Europe, to be absent until spring.

The sale of the Little Silver lode, adjoining the Robert E. Lee on the east, is said to be nearly completed.

It is reported that a body of ore 16 feet in thickness has been developed in the leased shaft of the Gilt Edge, in California gulch.

Mr. Given, of Denver, has been in Leadville the past two days looking after his interest in the famous Gunnison mine, on Sugar Loaf mountain.

Mr. Charley Lyke, former superintendent of the Little Pittsburg mine, is expected up from New Mexico in a week or ten days on a short visit. Mr. Lyke is located at Kingston.

The Crown Point mine, adjoining the Dome and Rock mines, on Rock hill, is credited with a rich strike. The ore is reported to run well in gold, silver and lead, particularly the former.

A fine body of ore was opened in the Surprise shaft on Carbonate hill yesterday. This shaft is located on conflicting territory, claimed by both the owners of the Vanderbilt and Maid of Erin lodes.

Manager Davis, of the Robinson mine, reports that there are only two leases now working in the mine. Two winzes are being sunk from the twelfth level, and some fair ore has been encountered, which is regarded as a very promising indication.

The Anglo-American Mining company contemplate resuming work on the Rose tunnel on Horn Silver mountain, near Red Cliff. The company will also try to devise some means for treating the ore now developed. The Gibraltar group of mines on the same mountain are also working, under the successful direction of Mr. Berry.

On Battle mountain, at Red Cliff, considerable effective work is being done and good shipments of ore are the results. New shaft houses and other improvements looking toward a more economical working of some of the mines, are being made.

Mr. Walter Church, who is working the Lady Alice mine on Breece hill, has opened a twelve-inch streak of ore assaying from six to seventeen ounces of gold to the ton. Two hundred sacks of ore are now at the mine awaiting shipment, which Mr. Church estimates will average one hundred dollars to the ton.

Leadville Chronicle.

The Economist, published in New York, in its last number, contains the following interesting article on the production of gold:

The fast decreasing production of gold has caused considerable discussion in certain papers in America and Europe. This is owing to the fact that the present sources of gold are being exhausted, and the territory in which new deposits might be found is gradually diminishing in extent. This is not only the case in this country, where the gold-bearing alluvium, which once furnished enormous yields, has almost entirely disappeared, and where the auriferous veins are becoming poorer and poorer, but in other countries, which of recent years have furnished a large supply of gold, among which may be enumerated Mexico, Australia, Brazil, Chili, Peru and the entire west coast of America. The ancient sources of this wealth—Asia, Africa, Spain, Portugal and other countries of Europe—are no longer prolific. Neither China nor Japan produces sufficient gold for home consumption. A careful analysis establishes the fact of a uniform decrease of gold in all parts of the world, and this fact, [illegible] circulation of commerce makes the metal, which in the opinion of the most profound national economists must be recognized as the sole legal circulating medium, indispensable. Of all the gold which has been mined between the years 1848 and 1875 the working of the ore has yielded only 12.02 per cent., while the deposits of auriferous alluvium, commonly called placers, furnished 87.98 per cent. As these deposits in the old countries are exhausted, while the gold mines also have nearly ceased to be productive, the three chief sources at present remaining for the production of gold are Siberia, the United States and Australia, while the last two are becoming exhausted. An immense alluvial territory exists in Siberia, covering the entire space from the Ural to the river Amoor, but the climate prevents washing during the greater part of the year. Although this is gradually decreasing, it is really increased by daily discoveries of new fields, and amounts at present to about $28,000,000 annually. The greatest quantity of gold has of late years been mined in America, partly due to the natural wealth, partly to the energy brought to bear for obtaining it. Volcanic forces have brought gold as well as silver to the surface in the Rocky mountains, but its exhaustion is rapidly approaching. California has passed through the several stages of a gold producing country; the washing of the river sands after 1848 produced immense wealth, while at present only the Chinese are engaged in it, and earn a bare living. The gold on the surface is exhausted, and only the deep deposits and the veins remain to be worked. Fully $1,900,000,000 of gold and silver have been mined in the United States within the past thirty years. The decrease has been steady and large. The same may be said of Australia; in New South Wales alone the production fell from 136,780 ounces in 1876, to 75,492 ounces in 1879. The total Australian gold production in 1876 was 164,889,000 marks. This had decreased in 1879 to 106,000,000 marks. Brazil, which a hundred years ago excelled any other country in the production of gold, has in this respect become impoverished within the last fifty years. It is not probable, therefore, that the apprehensions expressed by Michael Chevalier and Cobden when in the beginning of 1850 California and Australia sent annually about $180,000,000 gold into the world, that the world would become inundated with a flood of gold, will ever excite any special alarm. On the other hand, considering that America consumes at present a great part of the gold with which it formerly inundated the European markets, we are led to believe that national economists who ascribe the great periodically occurring crises to the want of gold, are not altogether wrong.

Leadville Democrat.

Judge L. M. Goddard of the district court, now in session in this city, yesterday morning appointed Mr. J. W. Wallace receiver of the Robinson mine, in the Ten Mile district. Mr. Wallace immediately gave bond in the sum of $50,000, and at Pickett left for Robinson [illegible] especially for the purpose. Mr. Wallace is an experienced and practical mining man, who will administer the affairs of the company during a pending settlement in an honest, impartial and able manner.

The application for a receiver was made by William R. Hall, J. B. Stevens and L. B. Parker. The prayer for a receiver alleges mismanagement against the recently appointed manager, Mr. J. W. Davis, and a gross breach of fiduciary trust on the part of the president of the company, Hon. Hiram A. Johnson. It charges the president of the Robinson company with appropriating and dissipating about $85,000 of the company's money.

That the affairs of the Robinson company need overhauling and investigation before a proper tribunal, there is no doubt. Rascality, thievery and bloodshed are interwoven in the history of this mine, occupying about as many pages as the records of the ore, shipments and products. Every disreputable feature that can well be imagined in connection with a supposed honorable and legitimate industrial enterprise, finds a counterpart in the archives of this property. And instead of becoming better, matters have as time advanced, been growing worse at each turn of the wheel, until the Robinson has become a detriment to every mining enterprise in the state and a disgrace to the mining industry at large. The management at the mine has stigmatized the directory of the company as liars and thieves, and the directory has retorted with the epithets of thieves and liars. Certainly a pleasant and inviting picture, and one that will (?) stimulate eastern capital in placing its spare money in mining enterprises.

The Democrat is glad to see this step taken, which promises to bring the guilty parties into court, even if, and as is generally believed, by the worst element of the two contending factions. And now that open war has been declared, let the battle continue until all the evil is rooted out, and this running sore on the mining interests of the entire Rocky mountain region eradicated by the infallible instrument [illegible] civil and criminal court.

FREE READING ROOM.

A Public Spirited Enterprise Generously Inaugurated

By the Grace Church Association, Free to All.

The Room to be Formally Opened on Monday.

On Monday evening next at 7.30 o'clock, the Grace Church Association free reading room will be formally opened. This enterprise is the outgrowth of the donation by Mr. O. Metcalf of the use of the property on the southwest corner of Weber street and Platte avenue, for Sunday school and other purposes. By the terms of the gift, the property is under the control of Grace Church Association, an organization recently formed, of which the Rev. G. T. LeBoutillier is president, W. B. Gaskill vice-president, J. H. Titus secretary and Miss May Wagner treasurer. The first floor of the building has been entirely remodeled by Mr. Metcalf, and now comprises two rooms, one a small class and committee room, while the other, which is 20x48 feet, will be used for the library and reading room as well as for the sociables and entertainments of the association. The library has been placed by the association under the charge of a committee composed of the following: Hon. H. A. Risley, Dr. J. Reed, Dr. S. E. Solly, Mr. J. F. Humphrey and Mr. O. Metcalf. These gentlemen have taken an active interest in the enterprise, and though appointed less than two weeks ago have already succeeded in securing quite a number of books, magazines and newspapers. At a recent meeting they drew up the following rules governing the reading room, which will convey the best idea of the purpose and scope of the enterprise:

GRACE CHURCH ASSOCIATION, FREE READING ROOM.

This reading room is free and all are invited to make use of it. The room will be open from 10 a. m. until 10.30 p. m. (Sundays excepted).

As it is supported entirely by voluntary contributions, a "mite box" is hung on the wall, and all patrons are asked to put in, as often as they will, any amount they may feel able to give; there are no charges or dues for the use of the room.

Contributions of books, magazines and papers will be gladly received at any time.

Visitors are requested to register their names and addresses in the book provided for the purpose.

RULES.

No books, magazines or papers are to be taken from the room under any circumstances.

Quiet demeanor and avoidance of loud conversation is requested. Visitors are requested to be careful of the books, magazines and furniture, and to put the books and magazines back in the book cases when through reading.

No games of chance allowed; other games permitted.

No smoking allowed.

Though the reading room is under the control of Grace Church association, its use is free to all, and the entire public is most cordially invited to avail itself of the benefits.

The room has been furnished with a large table furnished with stationery and writing implements, and also with proper book cases. The shelves already contain some fifty-four volumes, about thirty of which have been loaned by Dr. Reed and comprise such valuable standard works as Motley's United Netherlands and Dutch Republic, Boswell's Life of Johnson, Hallam's Middle Ages, D'Aubigne's Life of Cromwell, &c. Among the periodicals already arranged for may be numbered: Harper's Monthly, the Century, Puck, Our Continent, Littell's Living Age, International Review, St. Nicholas, Scientific American, Churchman, Modern Age, together with a number of dailies. Two sets each of chess, checkers and dominoes, a set of loto and a bagatelle board, have likewise been donated, as well as a stereoscope and lot of views.

The great interest taken in the enterprise by all to whose attention it has been brought and the success already achieved, render it certain that Mr. Metcalf's liberal and public spirited plans will be worked out to the great benefit of our town. We are glad that the foundations of a free public library, centrally located, have at last been laid in Colorado Springs, and we urge all citizens to assist in its support and growth, not only by contributions of books and literary matter, but by the encouragement of their presence and patronage.

The formal opening, as already stated, will take place on Monday evening next, when addresses and music may be expected, together with general social intercourse.

Conflagrations.

OSHKOSH, February 2.—The Times office and other property burned this morning. Loss $10,000; insurance $7,500.

LAWRENCE, Kas., Feb. 2.—The Lawrence vinegar works burned at 2 o'clock this morning; totally destroyed. Loss $20,000; insured $13,200.

ATLANTA, Ga., February 2.—The court house at Lafayette and county records burned.

ALBION, N. Y., February 2.—The Curtis Manufacturing Co.'s building was damaged by fire $30,000; insured.

MONTREAL, February 2.—Warren King's iron foundry burned. Loss $70,000; insurance two-thirds. A later report says the fire has extended to a silk factory.

JOB WORK.

Facilities for Plain and Fancy Job Printing equal to those of any establishment west of the Missouri river.

All persons having advertisements in this paper and desiring them discontinued will please make it known at the business office, where they will be properly attended to. We cannot hold ourselves responsible for advertisements continuing in the paper unless notice is thus given.

Mr. Harry Iles is the authorized collector and solicitor for the Gazette Publishing Company.

No claims are allowed against any employe of the GAZETTE to offset any of our accounts.

All advertisements for the WEEKLY GAZETTE must be handed in not later than Thursday noon.

Advertising agents are respectfully notified that we do not want any advertising from them.

B. W. STEELE,
Manager of the GAZETTE.

Our politics need more manliness, more decency, more common sense.

The contest for the position of postmaster of Denver seems likely to become interesting before it is settled.

Our dispatches br[illegible] severe weather in Kansas and Wyoming. The state of affairs in Wyoming seems really serious for live stock.

Senator David Davis has been suggested as a member of the civil service commission. He would probably be a good man for such position.

It begins to look as if the tariff question would cut an important figure in the next presidential campaign. Let consumers stand together.

The new counties which the house committee of the whole has reported in favor of are not named after men. This seems wise. The names as now agreed to are Mesa, Delta, and Montrose.

The Salida Sentinel thinks the citizens of Salida should not pay too much attention to politics, but should work together for the interest of the town. We think there is need of such a plea as this.

There are to be receptions at the residence of Governor Grant on Tuesday and Thursday evenings of next week. No invitations are to be issued, and full dress suits will not be required. Any one can attend dressed as he sees fit.

We reprint a manly article from the Greeley Tribune, a manly article on the senatorial election. Those people who put party success before decency and everything else ought to see that the very thing they want—party success—has been endangered.

Governors Butler, Cleveland and Pattison, of Massachusetts, New York and Pennsylvania, respectively, do not seem to be making the best possible start in their gubernatorial careers. Cleveland, whose term lasts three years, and Pattison, whose term is four years, will have excellent opportunities of making for themselves reputations. Will they improve them?

Many republicans throughout the country will regret the defeat of Senator William Windom in Minnesota. It seems that Mr. Sabin was elected by the aid of democratic votes. We trust the new senator will prove a strong and useful man, but we are not in favor of exchanging a man who has done well unless there is very good reason to expect the new man will be better.

Says the Chicago Inter-Ocean: "The Colorado legislature elected two senators last "week. One is worth ten millions and the "other is worth five millions. There are already eleven millionaires in the senate, "Davis of Illinois, Brown of Georgia, Camden "of West Virginia, Cameron of Pennsylvania, "Davis of West Virginia, Hale of Maine, Hill "of Colorado, Miller of California, Pendleton "of Ohio, Sawyer of Wisconsin, and Fair of "Nevada, and it will soon be as difficult for a "poor man to go there as it is for a rich man "to go to another place."

The following from an eastern paper touches on one of the greatest obstacles to the woman suffrage movement: "The Butlerian idea "seems to have taken root in Kansas. The "legislature of that state is considering a bill "providing that the question of woman suf"frage be submitted to a vote of the women "themselves at the next election. How many "of the women can be prevailed upon to vote so "as to determine whether they shall thereafter "be entitled to vote? If the Kansas women "are minded as others of the sex, not one in "ten will take the trouble to assist in procur"ing a franchise not one in ten has asked for."

The Denver Tribune pokes fun at Colorado's last and greatest statesman in the following alleged special dispatch:

WASHINGTON, February 2.—Hon. H. A. W. Tabor, senator-elect from Colorado, took his seat in the senate to-day. He was sworn in by Chief Justice Waite, the ceremony being unusually impressive. The galleries were crowded with the beauty and fashion of the nation, many prominent gentlemen and their wives having come from distant parts to witness the important event. The ceremony having concluded, the senate resumed discussion of the tariff bill. Senator Vest spoke at some length, after which Senator Tabor took the floor and delivered what is conceded the most eloquent speech heard in congress since the days of Webster, Clay and Hayne. He opposed the Bill on the grounds that it was time for the country to abandon a system of hero worship which had already brought a great amount of mortification. Coming as he did from the far west, he had experienced in common with other citizens of Colorado the evil effects of the various Bills which had been let loose upon the republic, especially in the border states. "I have no personal acquaintance," said he, "with this Tariff Bill, but what I have known of Buffalo Bill, Wild Bill and Billy the Kid has inspired me with the conviction that our glorious country has had quite enough to do with Bills of every kind. [Applause.] Mr. President, in the name of the silver state that has honored me with a place here, I protest against this Bill—I protest against all Bills—and to a vigorous hostility to all legislation of this character I pledge myself during my entire term in this honorable body." [Cheers.] This evening Senator Tabor dined with the president. It is understood the administration has decided to place at his disposal all the patronage west of the Mississippi and ten miles out into the Pacific ocean.

The Greeley Tribune on the Result

We record with feelings of deep regret the result of the election for United States senators by the legislature of this state. Long since the Tribune anticipated the designs of the successful aspirants and was among the first papers of the state to sound the warning. It discussed these very men in leading editorials, showed their unfitness, and how their success would not only imperil republican ascendency, but would also tend to corrupt public morals. From the first the Tribune stated, and it believes to-day, that of all those prominently mentioned for the high position, Governor Pitkin was by far the fittest man. That he was the choice of a vast majority of the people there seems to be little doubt. But we had no pet candidate, and only desired to see the senatorial honors fall upon worthy shoulders. For the good name of our state, and the welfare of the republican party, we did not want any scandal connected with this important election. The outcome shows that these considerations were of little weight, apparently, with the members of our legislature. In the face of repeated protests, in spite of the emphatic warning given at the last general election, that political immorality must be [illegible] these representatives of the people have deliberately ignored the public wish. Instead of electing representatives of the highest character and reputation, grossness and immorality have been elevated into virtues, and the edict has gone forth, that any man is worthy of the highest political place, who has great wealth, and is willing to dispense it freely to secure the position sought. It is again promulgated that those who are without this potent factor, however worthy and capable they may be, are beyond the pale of high political distinction. We can best regard the result in the nature of a calamity to our state, and confess to a sense of humiliation at the attitude of republican leaders. We had hoped that they would profit by the recent wide-spread and emphatic rebuke given the party and that by wise counsels and judicious action serve to unite the rank and file of the grand old party for the struggle of 1884. To-day we fear for the result two years hence. A general sentiment, not merely of indifference, but of positive disaffection prevails, with the burden of which no party can succeed. But whatever the result, we feel that the lesson ought not to pass unheeded. The press of Colorado will not be true to its calling if it fails to speak with no uncertain sound at this time. Unworthy subserviency must not prevent bold and outspoken utterances. For the sake of decency and of good government let this vulgar scramble for office be condemned. Let political jobbery be overthrown. For the good of our party, that we would see kept in the ascendency, let us place upon this the stamp of unqualified disapproval. The Tribune will not keep silent, and it here arraigns the members of the Colorado legislature for unfaithfulness to their constituencies, for dishonoring the commonwealth, and for having brought about a result which must form an unhappy chapter in the history of the state.

PERSONAL.

The Musical World of London, proclaims that Joachim and Saint-Saens are about to make a tour of the United States.

The Goddess of Liberty on the new five-cent piece is very pretty, and wears a patent medicine smile almost as soothing as that of the famous Lydia Pinkham.

The Prince of Wales intends making a parson of one his sons. After several years' practice as a revivalist the young man may be able to reform his father.

Instead of having written on his tombstone, "He never told a lie," the greatest man of modern times will probably prefer the words, "He never stole an umbrella."

A Pennsylvania paper makes the announcement that it's going to be fashionable next summer for young ladies to stay at home and help their mothers with the washing.

Patti likes Chicago, and Chicago has confessed it through her papers. That Chicago may not get too insufferably airy about it, we may add that Patti likes any place that pays well.

A son of Mme. Loyson, the wife of Pere Hyacinthe, is employed in one of the bureaus of the treasury department. He is a fine linguist and draughtsman, and is quite a favorite in certain circles in Washington.

Lewiston, Me., mourns the death of an eccentric lady who chewed and ate all kinds of books, papers and magazines. This strange taste is said to have been hereditary, and the papers intimate that her parents may have been in the habit, in their youth, of chewing paper wads for schoolhouse decorations.

The strongest man at Granite Corners, N. Y., is Stearns Carpenter, who is now eighty years old. Five years ago he grasped a twenty-four foot iron rail with each hand and walked off with it. At an earlier period he shouldered a cannon that weighed 1,400 pounds, and the next day lifted a box of iron that weighed 1,800.

Mr. Bergh complains of the poor quality of food given to the dogs of New York. We don't suppose they get roast beef very often, but if they lived in the country the probabilities are that they would fare still worse. Pretty often the rural canine's daily meal consists of a bite out of a tramp's leg, with a piece of a young man's coat tail for dessert.—[Norristown Herald.

Restorations.

The Egyptian Tomb and the Future State—R. Stuart Poole.

I remember last year going to a church in Cornwall. I remarked upon its beauty, but thought it looked suspiciously new. A friend said: "Yes, that church has a curious history. It was one of the very few early English churches in England that had Norman transepts. It was restored, and the work of Norman transepts put into the chancel as their appropriate place." This is the way the sculptures of antiquity have been treated, and it is only the statues dug out of earth, or raised aloft above it, that are yet as when they were made, changed only by the chances of time, like the priceless marbles of the Mausoleum and the Parthenon. My father as keeper of coins in the National museum is very strong against restoration, because I have suffered long and tedious labor, and have had to draw upon the nation's purse for thousands of pounds to replace the Roman coins which have been touched up and restored, and consequently had lost their historical value.

A College Without a Student.

West Point Star.

Williamsburg, once the seat of learning, wealth, fashion and social position of Virginia, seems to be fast going to decay. The college has entirely gone down. Last year there was only one student—this year none. The president has a splendid residence just out of the town, and the buildings are quiet and lonely looking, and seem to hide within their walls much of wisdom, but this is all that is left of this once proud seat of learning, William and Mary College.

The Precious Woods of Mexico.

Bradstreets.

A correspondent of the Mexican Financier calls attention to the great quantity of precious woods which he declares exists in Mexico. He says that from the frontiers of Guatemala to those of the United States there is a vast domain, whose growth of cabinet woods he describes as truly enormous. Among the varieties of woods which figure most prominently in the district along the Pacific and Gulf coasts, he instances mahogany, ebony, rosewood, iron-wood, sandal and aloe wood and cedar. Concerning the last named wood he says that the Mexican variety, in addition to its rich aroma, possesses a grain so fine as to make it superior to many of the fine woods generally used in the markets of Europe and the United States. The only use hitherto found for this wood, the writer continues, has been in the manufacture of cigar boxes. He adds that in burning lime he has used for fuel rich woods which could have been sold for good prices if known in the American markets. The Financier confirms the statements of its correspondent in relation to the growths along the coast, and adds that in the greater altitudes hickory, hard cedar, pine, larch, oak, sycamore and walnut flourish to perfection. It states that the rapid advance of railroads is daily making these supplies more available, and that for the encouragement of this industry the various state governments, as well as the general government, are offering liberal concessions to all who will utilize and further develop the lumber resources of the country. The Financier calls attention of American capitalists to the matter, saying that there is a large demand in Mexico for ordinary grades of lumber, and that the Americans are not only large consumers but also important exporters to Europe of the finer articles of woods. These latter, the Financier concludes, can be had in Mexico in any desired quantity and variety.

Gambetta and Bismarck.

According to the Paris correspondent of a German newspaper, M. Gambetta had only one opportunity of seeing Prince Bismarck. M. Gambetta told the correspondent that in 1867, at the time of the great exhibition in Paris, he was sitting one evening with a friend at a little table before a restaurant in the Place de l'Opera. Every seat near them was occupied. M. Gambetta, while carrying on conversation, put out his hand for his beer glass, but found that it was gone. "He has taken Hanover from you," said his friend. At this moment two men by his side one of them a tall and imposing figure rose and went away. "There!" said M. Gambetta's companion, "the big one—that is Bismarck; and it was he who emptied your glass. When I uttered the word 'Hanover' he saw that he was recognized, and walked off." "Since then," Gambetta said, when relating the incident, "I have had much to do with Prince Bismarck, but that was the only time I came into personal relation with him." The same correspondent says that M. Gambetta had the highest admiration for Prince Bismarck's great qualities. "So long," he declared in 1880, "as Prince Bismarck remains what he is—a man of genius unless his health breaks down, he will be the master of Germany."

A Literary Growl.

Blackwood's Magazine.

American enterprise has lately made a new departure in England. We all respect that energetic quality. We know what it has done in the past, we are aware that everything is expected from it in the future. In literature, perhaps, there are reasons, proper to the literary bosom, and in which the public on either side of the Atlantic has shown no very encouraging interest, which make us contemplate with a certain *spitefulness* the benevolence of the reception which has been awarded to our transatlantic brethren in this respect. It is futile, and, it is perhaps not enlightened; but there are circumstances in which the principles of free trade, however entirely acquiesced in as a system, can be accepted only with a pang. When our own wares are heavily taxed by our neighbors or *a plus forte raison*, when they are taken from us by our neighbors without any price paid at all—it would require a temper more than human to concur without the faintest grudge in the brilliant reception, the abundant recompense, the generous enthusiasm with which the productions of our fellow trades*men among those neighbors* are received here. We are willing to allow that the sentiment is shabby, but it is human.

An Important Find of Greek Sculpture.

A dispatch from Athens to the London Times says: Dr. Schliemann's resumption of his excavations at Hissarlik has failed to develop anything confirmatory of his Ilian hypothesis. The famous stratification of civilization which was supposed to testify to the extreme antiquity of the city which stood on Hissarlik is shown to be untenable, and further work on the site stopped. The Austrians excavating at Gulbaktche, opposite Rhodes, on the mainland, a site the ancient appellation of which is unknown, have made a fortunate discovery of an entire mausoleum, not unlike that of Halicarnassus, and ornamented with reliefs in a very fine style of art, portions resembling strongly the sculptures of the great *Pergamon altar*. They comprise scenes from the "Odyssey," combats of Amazons, etc., the figures in general being in accordance with the treatment and costumes of the florid epoch of the Greek art, but many of the figures are in distinctly Asiatic costume. The sculptures are in a fine sandstone which neither lends itself to finish or preservation, as does marble, but the condition of the work is so good as to indicate an early interment. When reconstructed, as it will be at Vienna, it cannot fail to throw new light on Greek art. The Turkish government very liberally decided that the series of reliefs ought not to be divided, and so the Austrian government has secured the entire monument.

Trustee's Sale.

Whereas, Wm. Loney, of the county of El Paso and state of Colorado, by his certain deed of trust, dated December 5th, 1881, and duly recorded December 5th, 1881, in the office of the clerk and recorder of said county of El Paso, in book 40 at page 234 of the records of El Paso county, to secure the payment of his one promissory note dated December 5th, 1881, for the sum of eleven hundred thirty seven dollars and thirty-five cents (1137.35) payable to the order of C. M. Clark one year after date thereof, and bearing interest from date until paid at the rate of [illegible] per month, payable annually, did convey to George P. Vaux, of the said county of El Paso and state of Colorado, as trustee, all those premises hereinafter described, by which trust deed it is provided that in case of default in the payment of said note or any part thereof, or the interest thereon, it may be lawful for said George P. Vaux to advertise and sell the premises in said trust deed described, and as therein provided: And whereas, default has been made in the payment of said note and interest according to the tenor of said note and the same is now unpaid, now therefore, I, George P. Vaux, trustee, at the request of the legal holder of said note do hereby give public notice that I shall on Saturday, February 25th, A. D. 1883, at the hour of 3:30 o'clock a. m., at the front door of the court house in the county of El Paso and state of Colorado, sell at public auction to the highest bidder for cash all the premises in said deed of trust described, to wit: The S. W. ¼ and the S. E. ¼ of the N. W. ¼ and the S. W. ¼ of the N. E. ¼ and the W. ½ of the S. E. ¼ of section (18) eighteen, [illegible] N. W. ¼ of section (19) nineteen, all in township (12) twelve, range (66) sixty-six, [illegible] four hundred and eighty acres, more or less, excepting only the right of way [illegible] Denver and Rio Grande railway company's constructed road now running through the above described lands, in the county of El Paso and state of Colorado, together with all and singular the tenements, hereditaments, privileges and appurtenances thereunto belonging, and all right, title, interest and equity of redemption of the said Wm. Loney, his heirs or assigns therein.

GEORGE P. VAUX, Trustee.

Colorado Springs, El Paso county, Colorado, January 24th, 1883. wk-27-4

HALL'S VEGETABLE SICILIAN HAIR RENEWER is a scientific combination of some of the most powerful restorative agents in the vegetable kingdom. It restores gray hair to its original color. It makes the scalp white and clean. It cures dandruff and humors, and falling-out of the hair. It furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft and glossy, and is unsurpassed as a hair dressing. It is the most economical preparation ever offered to the public, as its effects remain a long time, making only an occasional application necessary. It is recommended and used by eminent medical men, and officially endorsed by the State Assayer of Massachusetts. The popularity of Hall's Hair Renewer has increased with the test of many years, both in this country and in foreign lands, and it is now known and used in all the civilized countries of the world.

Nothing Short of Unmistakable Benefits

Conferred upon tens of thousands of sufferers could originate and maintain the reputation which AYER'S SARSAPARILLA enjoys. It is a compound of the best vegetable alteratives, with the Iodides of Potassium and Iron, all powerful, blood-making, blood-cleansing and life-sustaining and is the most effectual of all remedies for scrofulous, mercurial, or blood disorders. Uniformly successful and certain, it produces rapid and complete cures of Scrofula, Sores, Boils, Humors, Pimples, Eruptions, Skin Diseases and all disorders arising from impurity of the blood. By its invigorating effects it always relieves and often cures Liver Complaints, Female Weaknesses and Irregularities, and is a potent renewer of waning vitality. For purifying the blood it has no equal. It tones up the system, restores and preserves the health, and imparts vigor and energy. For forty years it has been in extensive use, and is to-day the most available medicine for the suffering sick.

By Universal Accord,

AYER'S CATHARTIC PILLS are the best of all purgatives for family use. They are the product of long, laborious, and successful chemical investigation, and their extensive use, by physicians in their practice, and by all civilized nations, proves them the best and most effectual purgative Pill that medical science can devise. Being purely vegetable no harm can arise from their use, and being sugar-coated, they are pleasant to take. In intrinsic value and curative powers no other Pills can be compared with them; and every person, knowing their virtues, will employ them, when needed. They keep the system in perfect order, and maintain in healthy action the whole machinery of life. Mild, searching and effectual, they are especially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weakened constitutions, where a mild but effectual cathartic is required.

The committee appointed by the Kansas legislature to examine the condition and management of the Kansas City stock yards yesterday returned a favorable report. They recommended the appointment of a state inspector to control the weighing

War to the Knife

Mobile Register

In the good old times of Mobile, when the whig and democratic papers were thundering at one another and the public was anxiously looking for gore, the able editors, in the mean time, used to meet surreptitiously every night and have a quiet game of cards One day the democratic editor got sick and couldn't 'go for his hated contemporary He therefore dropped him a note advising him of the fact and asking him to write the article himself This the whig editor at once did, and pitched into his own paper and himself in fine style to the extent of a column or more. Thus was the great controversy kept up and the public bamboozled

Purity of Elections in Australia.

Pall Mall Gazette

An incident that happened lately at an election in a Queensland sugar district throws some light upon the ways of the sugar kings. The election was a close one, and the planters were doing their utmost to return their candidate, who was opposed by a business man, for the township of the district D—n you, sir, cried an excited planter to a storekeeper who was bold enough to support the anti-planter candidate, "didn t I bring my niggers to your store and let you charge them what you liked for your rubbish? And now you vote against us" "And you sir," retorted the unabashed storekeeper, "what if you did? Didn't I pay you 25 per cent. for doing it?" The accusation was not denied

In the Whole History of Medicine

No preparation has ever performed such marvellous cures, or maintained so wide a reputation, as AYER'S CHERRY PECTORAL which is recognized as the world s remedy for all diseases of the throat and lungs Its long-continued series of wonderful cures in all climates has made it universally known as a safe and reliable agent to employ Against ordinary colds which are the forerunners of more serious disorders, it acts speedily and surely, always relieving suffering, and often saving life. The protection it affords, by its timely use in throat and chest disorders, makes it an invaluable remedy to be kept always on hand in every home. No person can afford to be without it, and those who have once used it never will From their knowledge of its composition and operation, physicians use the CHERRY PECTORAL extensively in their practice, and clergymen recommend it It is absolutely certain in its healing effects, and will always cure where cures are possible.

Various Causes -

Advancing years, care sickness, disappointment and hereditary predisposition all operate to turn the hair gray, and either of them inclines it to shed prematurely AYER S HAIR VIGOR will restore faded or gray, light or red hair to a rich brown or deep black, as may be desired It softens and cleanses the scalp giving it a healthy action It removes and cures dandruff and humors By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or the glands decayed Its effects are beautifully shown on brashy, weak, or sickly hair, on which a few applications will produce the gloss and freshness of youth Harmless and sure in its results, it is incomparable as a dressing and is especially valued for the soft lustre and richness of tone it imparts

AYER S HAIR VIGOR is colorless; contains neither oil nor dye; and will not soil or color white cambric; yet it lasts long on the hair, and keeps it fresh and vigorous, imparting an agreeable perfume.

J. M. ELLISON, Agent.

Charley Barton will have a preliminary hearing before Justice Pixley this morning.

At daylight yesterday morning the thermometer registered eight degrees below zero, and the weather was very cold all day.

To-morrow evening Rev. A. W. Arundel, of the Methodist Episcopal church, will begin a series of Sunday evening sermons on hell.

George Nevins filed in the county clerk's office yesterday a certificate of location on the Darling mining claim on Cheyenne mountain.

There was a meeting of the directors of the Colorado Springs Hotel company yesterday afternoon. But little business of importance was transacted.

District Clerk J. E. McIntyre returned yesterday from a short visit to Denver. He reports it [illegible] under foot there as in Colorado Springs.

Slipping [illegible] Tejon street yesterday and notwithstanding the weather was very severe, several persons improved the opportunity for a sleigh ride.

Go and see the Juvenile Opera company's rendition of Pinafore at the opera house to-night. All of the leading characters will be well taken, and the costumes, scenery and stage property will be very complete.

The Juvenile Pinafore company held their final rehearsal last evening at the opera house and everything passed off satisfactorily to the managers. The entertainment promises to be a good one. Encourage the children by attending to-night.

The billiard hall in the Wells & Prewitt block has been [illegible] by Mr. W. F. Dewey to Messrs. B. F. Waldron and John McTier, who are well and favorably known in this city, Mr. McTier having formerly been a partner of Mr. Dewey.

A musical and literary entertainment has been arranged for in the Methodist Episcopal church next Thursday evening. Mr. and Mrs. A[illegible], both of whom have acquired considerable reputation in Denver as elocutionists, will take part in the exercises.

Fire was started in the opera house furnace on last Monday and has been kept up day and night, and notwithstanding the cold weather, Manager Nye promises all those who wish to attend the Juvenile Pinafore this evening that the house will be warm and comfortable.

A meeting of the Ladies Auxiliary society of the Y. M. C. A., which was organized in this city last Tuesday, will be held next Tuesday afternoon, at which time new members will be received, committees appointed and other important business transacted. Let all the ladies interested in the Y. M. C. A. of our city be present.

Colorado Springs yesterday experienced another cold snap. In the morning the air was sharp, but as compared with the change that occurred in the afternoon was comparatively moderate. After 4 p. m. the mercury began to descend. At 3 o'clock the thermometer registered 5° below, at six 12°, at nine 14° and at midnight 16°.

A meeting of the committee of arrangements for the New England supper and charity ball to be given at the opera house next Tuesday night will be held this afternoon to make further preparations for the affair. It is very probable that tickets for the supper and dance combined will be placed on sale at the book stores either to-day or Monday. All those interested in the maintenance and support of the Home should purchase them whether they desire to go or not.

Since it began storming the early part of the week the snow-birds have flocked into the city in large numbers, and hundreds of them can be seen upon every bare spot of ground in the streets and yards. We noticed yesterday that the small boys were frequently trying to kill them either with stones or sling-shots. By way of warning we will say that this is a practice that is forbidden by the statutes of Colorado. Every person caught in the act of killing any insectivorous bird is liable to imprisonment or the payment of a fine of from five to fifty dollars. We understand that several warrants have been issued for the arrest of boys who were engaged in killing snow-birds yesterday, and the others had better be on their guard.

The Merry War.

The advent of J. H. Haverly's English Opera company next week will be the signal of a great musical feast, to which all the people of Colorado Springs are invited. "The Merry War," Johann Strauss' latest effort, is a triumphant musical work, and with a superb company of artists, such as Miss Dora Wiley, Miss Hattie Richardson, Miss Pauline Hall, Mr. Richard Golden, C. M. Pyke, and Michael Lee, it is everywhere heralded as a great success. Manager Nye has been to a great deal of extra expense in order to get this large company here and hopes the people will show their appreciation of his efforts by giving him a large house.

Engd. E. Wright, business manager of Haverly's "Merry War" opera company, was in the city yesterday making preliminary arrangements for their appearance here one week from to-night. This opera has been attracting large audiences at Denver during the past week and the press speaks of it in a very complimentary way.

BUSINESS LOCALS.

By virtue and authority of an execution issued from the office of the clerk of the county court within and for the county of El Paso, state of Colorado, dated December 14th, A. D. 1882, in favor of H. M. Hathey [illegible] plaintiff, and against L. E. Williams defendant, [illegible] directed, which I am commanded to make the sum of seven hundred seventeen dollars and two [illegible] ($717 [illegible]) debt, and further sum of thirty-four dollars and twenty-five cents ($34.25) costs and such further costs as may accrue. I have levied upon and seized all the right, title, interest and claim of the above named defendant of, in and to the following described real estate, to wit: Lots twenty-seven (27) and twenty-eight (28) in block one hundred and fifty-seven (157) situated in the town of Colorado City, in said county and state, which I will on Saturday, the 10th day of February, 1883, at the hour of ten o'clock in the forenoon of said day at the front door of the court house in the city of Colorado Springs, county of El Paso and state of Colorado, sell at public auction for [illegible] to the highest bidder, all the right, title, interest, claim, estate and property of the above named defendant, of, in and to the above described property, or so much thereof as will satisfy said execution and costs.

LO. C. DANA, Sheriff.
By Len. Jackson, Under Sheriff.
Dated this 20th day of January, A. D. 1883.

Common-Sense Remedy.

SALICYLICA.

No More Rheumatism, Gout or Neuralgia.

Immediate Relief Warranted.
Permanent Cure Guaranteed.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER

that SALICYLICA is a certain cure for RHEUMATISM, GOUT and NEURALGIA. The most intense pains are subdued almost instantly.

Give it a trial. Relief guaranteed or money refunded.

Thousands of testimonials sent on application.

$1 a Box. 6 Boxes for $5.

Sent free by mail on receipt of money.

ASK YOUR DRUGGIST FOR IT.

But do not be deluded into taking imitations or substitutes, or something recommended as "just as good!" Insist on the genuine with the name of Washburne & Co., on each box, which is guaranteed chemically pure under our signature, an indispensable requisite to insure success in the treatment. Take no other, or send to us.

WASHBURNE & CO., Proprietors.
